PROFESSIONAL SUMMARY

Microsoft Certified Azure Data Engineer with 3+ years of IT experience designing and delivering ETL/ELT pipelines, Azure data lakes, and analytics-ready datasets. Hands-on expertise with Azure Data Factory, Azure Databricks (PySpark), ADLS Gen2, Delta Lake, OneLake, Microsoft Fabric (Lakehouse, Data Warehouse, Data Factory, Dataflows Gen2), and Azure Synapse, leveraging Medallion architecture to build scalable data lakehouse platforms. Proven ability to reduce pipeline run times, improve SQL performance, and deliver governed data environments using Unity Catalog, Azure Key Vault, Fabric governance, CI/CD.

TECHNICAL SKILLS

- Cloud & Platforms: Azure Data Factory, Databricks, ADLS Gen2, SQL Database, Microsoft Fabric (OneLake, Lakehouse, Data Warehouse), Snowflake, Oracle
- Data Engineering: ETL/ELT Pipelines, Medallion Architecture, Lakehouse Architecture, Data Modeling, Data Warehousing, Data Lakes
- Big Data: PySpark, Spark SQL, Databricks, Delta Lake, Hadoop
- Programming: Python, SQL, T-SQL, Linux
- Governance & DevOps: Unity Catalog, Data Governance, Data Security, Data Lineage, RBAC, CI/CD, Azure Key Vault, Fabric Governance
- Tools & Analytics: Git, Linux, Power BI, Dataflows Gen2, Oracle FDI, GenAI (LLMs & Prompt Engineering)

WORK EXPERIENCE

Data Engineer | Zielotech Software Pvt. Ltd

Dec 2024 – Present *Pune · Remote*

- Built end-to-end pipelines using ADF / Fabric Data Factory with ADLS Gen2 & OneLake; implemented Medallion + Lakehouse architecture delivering data to 20+ stakeholders.
- Developed Databricks (PySpark) workflows processing 5M+ records/day; optimized with Delta Lake (partitioning, caching) reducing runtime by 30%.
- Applied governance using Unity Catalog & Fabric (RBAC, lineage, audit) across 10+ Delta tables for secure lakehouse access.
- Integrated Azure Key Vault; improved SQL performance across Azure SQL / Fabric Warehouse, boosting efficiency by 35% and reducing costs by 20%.
- Delivered Gold-layer datasets & Power BI semantic models (Direct Lake) supporting 15+ reports and GenAI use cases.

Analyst – Data Engineering | Deloitte USI

Nov 2023 – Dec 2024 *Bengaluru · Hybrid*

- Designed SQL-based ETL pipelines in Oracle FDI / Azure SQL processing millions of records; built 15+ operational dashboards in Oracle FAW/ODI, improving data visibility by 30%.
- Automated monthly and quarterly Azure-integrated reporting workflows, cutting manual effort by ~30%; managed 20+ project tasks per cycle in Jira across cross-functional teams.
- Received Applause Award for high-impact analytics solutions and collaboration with senior business leaders.

Azure Cloud Trainee | ApTSi

Sep 2020 – Jan 2022 *Aurangabad, MH*

- Completed structured Azure cloud training covering Azure fundamentals, cloud architecture, ADLS, Azure SQL, and Azure data services — forming the foundation for current Azure Data Engineering expertise.
- Built Power BI dashboards and gained hands-on experience with Azure-based analytics pipelines, data visualization, and cloud-based reporting tooling.

KEY PROJECT

Healthcare Data Lakehouse Platform | Azure · ADF · ADB · ADLS Gen2 · Delta Lake · Unity Catalog · PySpark · GenAI

- Designed Medallion-layered lakehouse (Bronze → Silver → Gold) on ADLS Gen2 for 10+ clinical datasets; orchestrated ADF pipelines with Azure Key Vault secrets, retry policies, and alerting to eliminate manual restarts.
- Engineered PySpark transformations in Azure Databricks with Unity Catalog access controls; GenAI-assisted development accelerated new jobs by ~20%, supporting 15+ downstream healthcare reports.

EDUCATION & CERTIFICATIONS

B.Tech - Computer Science & Engineering | M.G.M's JNEC | CGPA: 8.96 / 10

CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate
- Oracle Cloud Infrastructure – Enterprise Analytics Professional
- Joy of Python – Silver Medalist (IIT Madras)
- Oracle Cloud Infrastructure 2023 – AI Foundations Associate
- Oracle Cloud FAW 2023 – Implementation Professional
